Start year: [First year]

End year: [Last year]

Cause: All causes

Fire size class: All sizes

Mitigation strategy: All strategies

Time step: Year | 5 years | Decade

Active filters: All years · All causes · All sizes · All strategies · Yearly

Overview

[Two or three sentences stating the headline findings for the selected period.]

Total fire events

[value]

Total acres burned

[value]

[Definition and source]

[Definition and source]

Most common known cause

[value]

[Definition and source]

Mitigation actions recorded

[value]

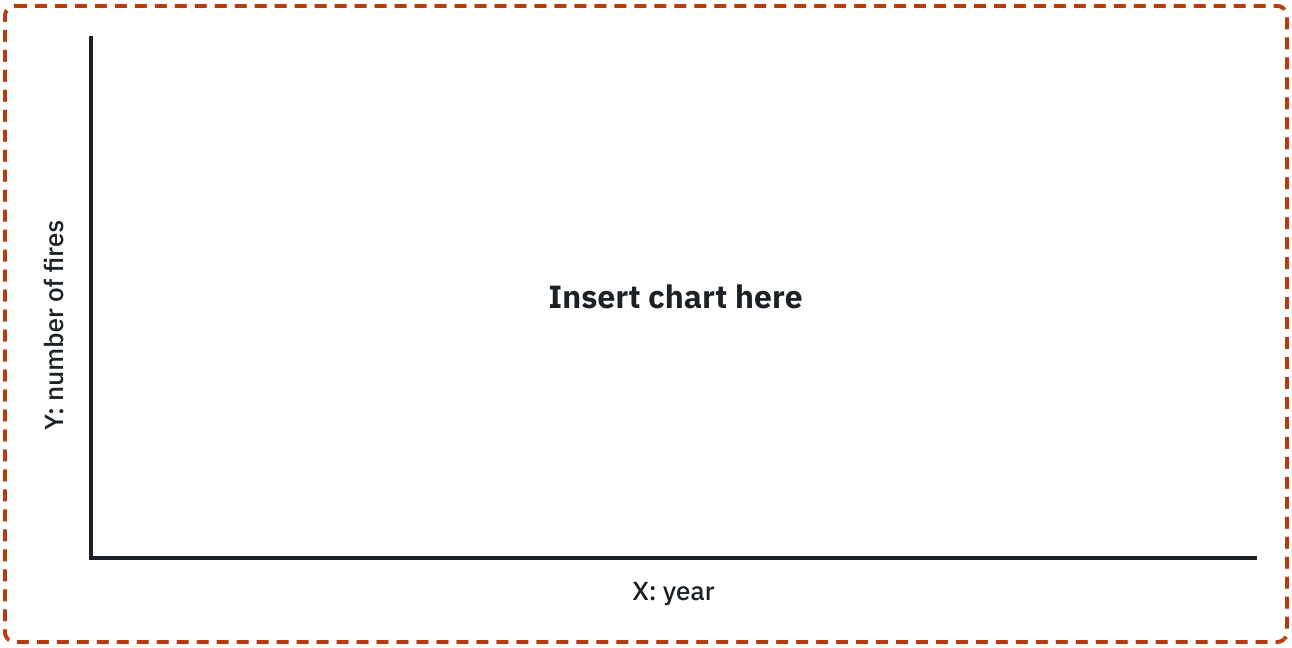

[Definition and source]

Causal events

[Research question 1, followed by the key takeaway.]

Fire events by cause over time

CH-01

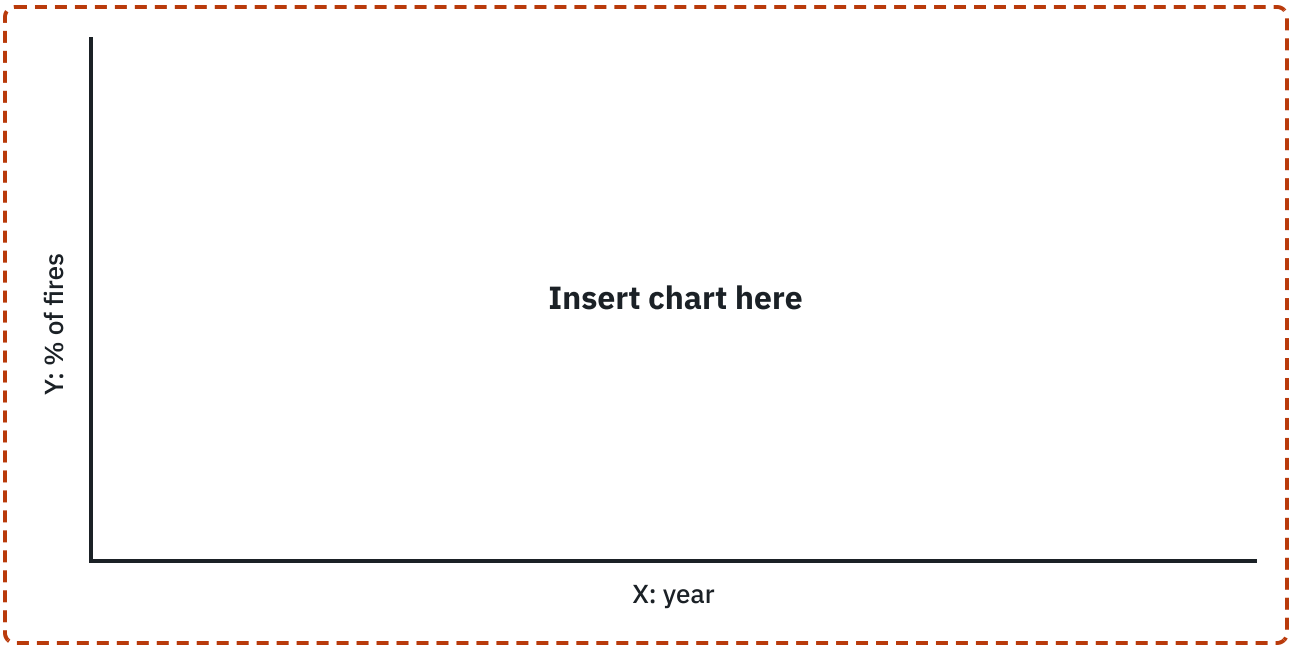

Filters: All years · All causes · All sizes · All strategies · Yearly

[Caption: what this chart shows and why it matters.]

Share of fires by cause over time

CH-02

Filters: All years · All causes · All sizes · All strategies · Yearly

[Caption: what this chart shows and why it matters.]

Summary statistics by cause

TB-01

Cause	Fires	% of fires	Total acres	Median acres	Largest
[Cause 1]	[value]	[value]	[value]	[value]	[va
[Cause 2]	[value]	[value]	[value]	[value]	[va
[Cause 3]	[value]	[value]	[value]	[value]	[va
Unknown or undetermined	[value]	[value]	[value]	[value]	[va

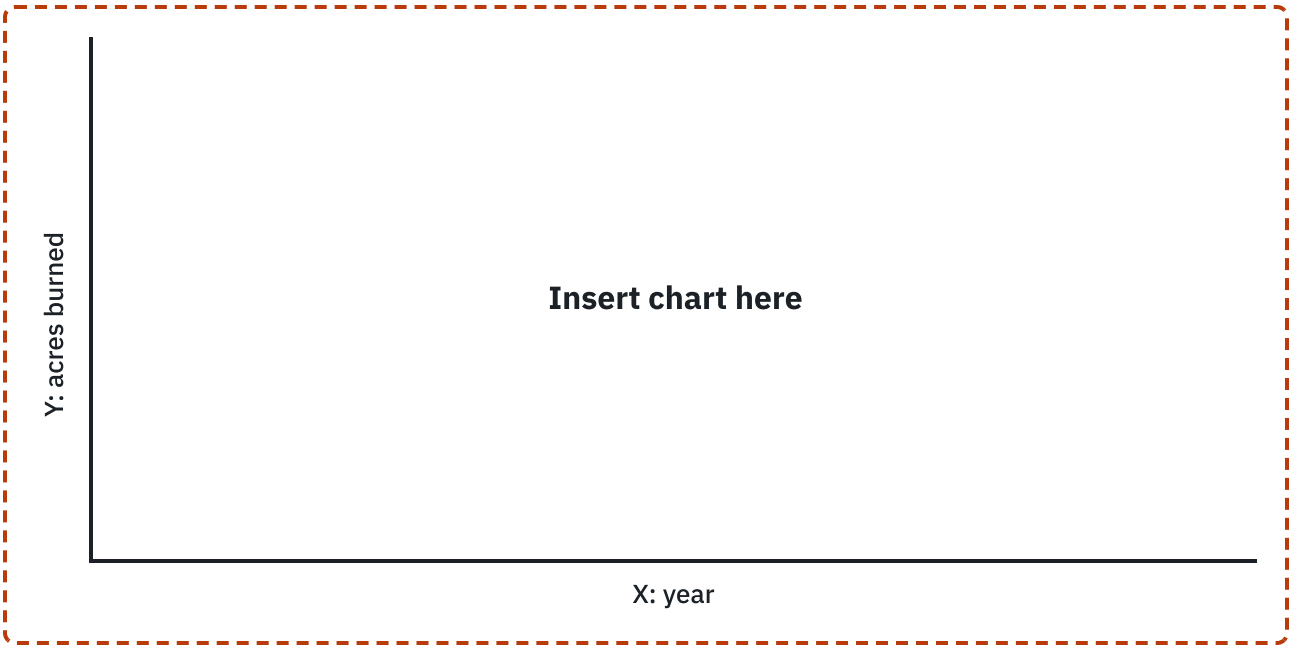

Filters: All years · All causes · All sizes · All strategies · Yearly

Fire scale

[Research question 2, followed by the key takeaway.]

Acres burned over time

CH-03

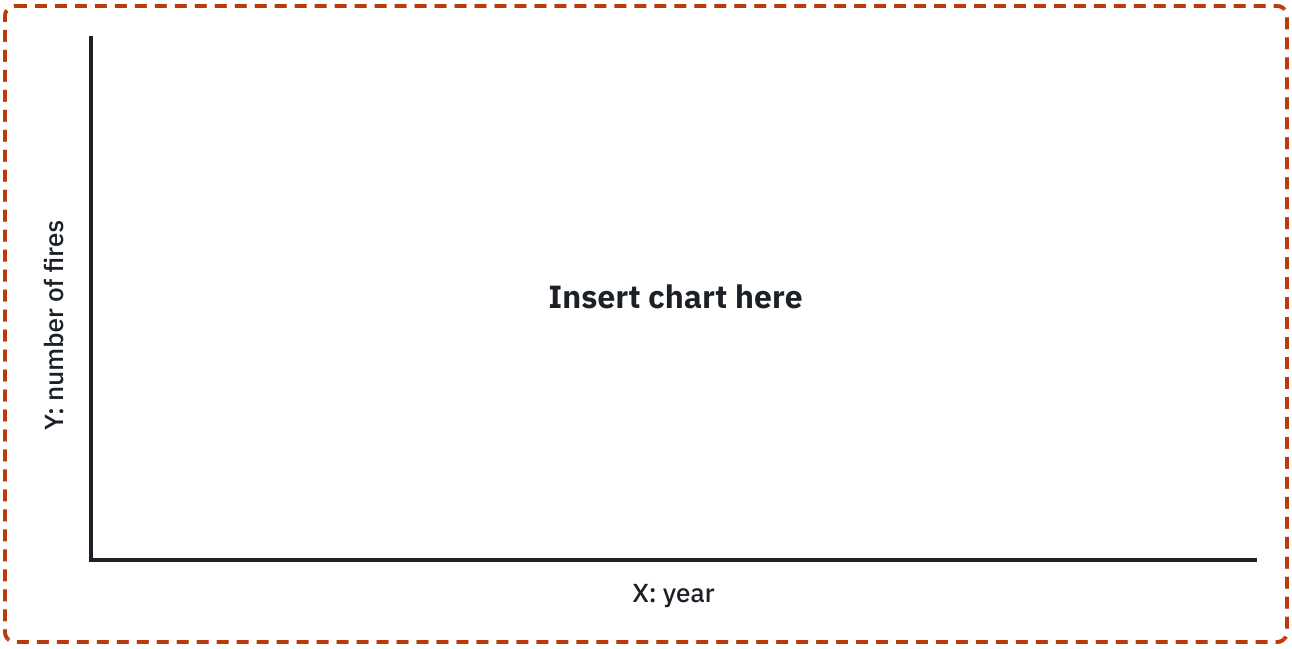

Filters: All years · All causes · All sizes · All strategies · Yearly

[Caption: what this chart shows and why it matters.]

Fires by size class over time

CH-04

Filters: All years · All causes · All sizes · All strategies · Yearly

[Caption: what this chart shows and why it matters.]

Summary statistics by size class

TB-02

Size class	Fires	% of fires	Total acres	% of acres	Median dura
[Size class 1]	[value]	[value]	[value]	[value]	[va
[Size class 2]	[value]	[value]	[value]	[value]	[va
[Size class 3]	[value]	[value]	[value]	[value]	[va

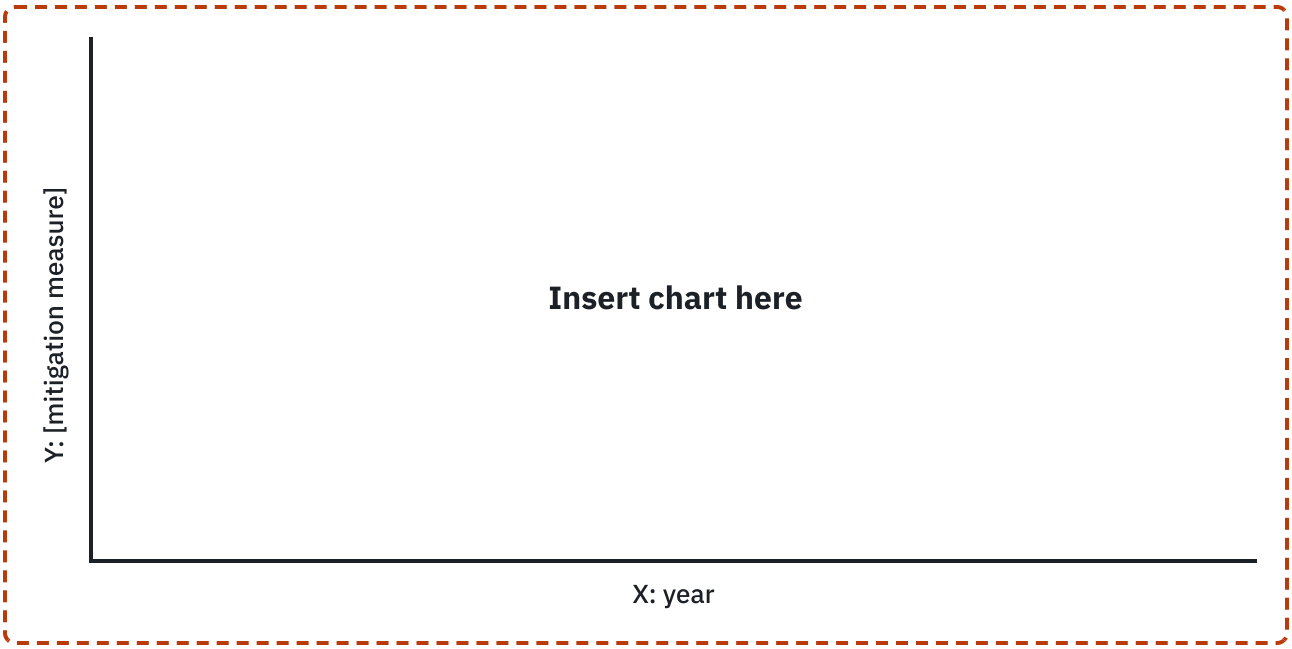

Filters: All years · All causes · All sizes · All strategies · Yearly

Mitigation strategies

[Research question 3, followed by the key takeaway.]

Mitigation use over time

CH-05

Filters: All years · All causes · All sizes · All strategies · Yearly

[Caption: what this chart shows and why it matters.]

Fire outcomes by mitigation strategy

CH-06

Filters: All years · All causes · All sizes · All strategies · Yearly

[Caption: what this chart shows and why it matters.]

Summary statistics by mitigation strategy

TB-03

Strategy	Fires	Years observed	Median acres	Median duration	[Outc meas
[Strategy 1]	[value]	[value]	[value]	[value]	[va
[Strategy 2]	[value]	[value]	[value]	[value]	[va
[Strategy 3]	[value]	[value]	[value]	[value]	[va

Filters: All years · All causes · All sizes · All strategies · Yearly

Maps and pictures

[One sentence on what these visuals add to the analysis.]

California fire map

Optional: scope undecided MAP-01

Insert map here

Suggested: choropleth by county or fire perimeters

Filters: All years · All causes · All sizes · All strategies · Yearly

Methods and sources

Data sources

[Dataset names, links, years covered, and access dates.]

Cleaning and definitions

[How the data was cleaned, and how causes, size classes, and mitigation strategies are defined.]

Limitations

[Missing data, reporting changes over time, and limits on what the analysis can conclude.]
